

Jordan King

Full-Stack Developer | UI Designer

Orange Park, FL • jordanrking24@gmail.com • (904) 674-1167

Portfolio: jordanking.io • GitHub: github.com/nomarjay

Professional Summary

Multidisciplinary developer and designer with a background in full-stack development, UI/UX design, and graphic design. Proficient in building scalable applications using Java, Spring Boot, MySQL, React, and front-end technologies like HTML/CSS and Bootstrap. Experienced in individual and group academic projects and freelance work, with a focus on usability, clean interfaces, and robust backend integration.

Technical Skills

Languages & Frameworks: Java, JavaScript, Python, C, Spring Boot, Thymeleaf, React, Bootstrap, HTMX, jQuery

Databases: MySQL, SQL

Design & UX Tools: Adobe XD, Figma, Photoshop, Illustrator, Canva, Premiere Pro

Web Technologies: HTML5, CSS3, XML, Git/GitHub, SEO, Responsive Design

Soft Skills: Team Collaboration, Creative Problem-Solving, Version Control, Agile Methods

Development Experience

Contract Web Developer

Freelance – Remote • Jan 2025 – Present

- Designed, developed, and launched client websites with domain setup and hosting
- Applied SEO techniques to increase search visibility using optimized metadata and semantic HTML
- Built responsive layouts with HTML, CSS, and JavaScript
- Provided ongoing maintenance and UI improvements based on analytics and client feedback

Front-End Developer (Academic Capstone Project)

University of North Florida • Aug 2024 – Dec 2024

- Built a responsive web interface that replaced a paper form system using HTML, Bootstrap, and JavaScript
- Integrated client-side validation to enhance user experience and reduce errors
- Collaborated with a UX case study analyst to ensure accessibility and compliance
- Resolved Git conflicts and led front-end version control

Full-Stack Developer (UI/Database Integration)

University of North Florida • May 2024 – July 2024

- Recreated the IBM website with a redesigned UI and connected a full backend using ASP.NET (C#) and SQL
- Designed database schemas and implemented CRUD functionality for user data
- Led technical execution and coordinated with teammates on documentation and usability improvements

Graphic Designer

Florida State College at Jacksonville • Oct 2019 – Feb 2020

- Created print/digital designs for campus events and campaigns
- Designed branding materials using Adobe Creative Suite
- Managed multiple design requests under tight deadlines

Highlighted Projects

Panda Tracker (Full-Stack)

Nutrition logging app tracking calories and macros; future “Panda Mode” will guide workouts using performance history. Built with Spring Boot and MySQL.

Microsoft & IBM Website Clones

Front-end clones using HTML, jQuery, and Bootstrap. Focused on layout replication and responsive structure.

PandaFit UI & Spotify Interface

High-fidelity UI designs built with Adobe XD. Centered on interaction design, layout balance, and usability.

Mini Projects (C, Java)

Console-based logic exercises from UNF programming courses focused on OOP and functional problem-solving.
